## HOUSE COMMITTEE AGREES ON OUTLINE

PROPOSED ARMY BILL CALLS FOR  
FEDERALIZATION OF NATIONAL  
GUARD.

### ALSO PLENTY OF SUPPLIES

Total Peace Strength of 575,000 Men  
Guardsmen and Regulars is Provided For By Bill.

Washington.—National preparedness legislation took a long step forward in congress when the house military committee reached a practical agreement on the outline of the army bill it will, unanimously present for passage. Chairman Hay was authorized to frame the measure, which is a compromise for the continental army plan advocated by former secretary of war and President Wilson.

Complete federalization of the National Guard will be substituted for the proposed continentals, and the White House was informed during the day that the committee was a unit in supporting the plan. The measure will grant virtually the entire program mapped out by Secretary Garrison for the regular army and go even farther than he recommended in providing for reserve military supplies.

A total peace strength of 575,000 men in the standing army and the guard combined will be provided for, with reserve systems to more than double the force in war. The expense for the whole establishment this year is roughly estimated at \$174,000,000. This is exclusive of Panama Canal defenses, proposals for additional military schools in all states carried in the McKellar bill favorably reported with an appropriation of \$3,840,000 and whatever camp may later be decided upon to foster one fixation of atmospheric nitrogen in the United States and give this country its own supply of ingredients for explosives. The first year of the Garrison plan would have called for a total expenditure of \$182,000,000.

Whether the new bill will be acceptable to President Wilson has not been indicated but the committee believes its plan will over-ride every objection to the substitution of the National Guard for the continentals and that congress has full legal authority for its accomplishment.

### FRENCH BAG BIG ZEPPELIN.

Incendiary Shell of Anti-Aircraft Gun Reaches its Mark.

London.—Another of Germany's big Zeppelin airships has come to grief, and it is probable that some, if not all, of its crew perished, as it was engulfed in flames as it fell to earth, a victim of an incendiary shell fired from a French anti-aircraft gun.

The Paris official communication reports that the airship was southward bound from the region of St. Menesbould when the French guns at Rixigny began shelling it. At least one of the missiles found its mark and the huge aircraft took fire and fell in the vicinity of Brabant-le-Roi.

The Germans near Iihons, to the south of the Somme River, have met with repulses at the hands of the French in an intended attack extending over about four and one-third miles. The offensive movement was preceded by a heavy bombardment and clouds of asphyxiating gases. When the German infantry endeavored to come out of their trenches for the attack, however, the barriers fire and the fire of the French riflemen stopped them everywhere, according to Paris.

### Earthquake in Six States.

Atlanta, Ga.—An earth tremor of slight but distinct nature that made itself felt throughout Georgia, North and South Carolina, Virginia, and portions of Eastern Tennessee and Alabama was reported as having been felt at about 5:45 p. m., Central time. In no case was any damage reported and while in some instances persons hurriedly left buildings there was nothing in the nature of a panic.

### Army Aviation Dangerous.

Washington.—A congressional investigation into the army aviation service was recommended to the senate by the military committee, which reported favorably Senator Robinson's joint resolution for appointment of a special investigating committee of two senators and three representatives, with an appropriation of \$10,000 for expenses. The resolution was voted out of committee after Senator Robinson had added a further statement to the sensational charges against the service made by him.

### Charges Against Tom Watson.

Washington.—Attorney General Gregory made public a letter to Chas. R. McCrory of Ellaville, Ga., stating the position of the department of justice in regard to prosecution of Thos. E. Watson of that state for alleged sending through the mails of obscene and indecent matter. The letter answers protests of Georgia members of Congress against reported plans of the department to prosecute Watson outside the State of Georgia on the ground that a fair trial could not be had in that state.

Few Musical Instruments Exported. American manufacturers of musical instruments, with an annual output valued at about \$100,000,000, export only \$300,000 worth annually to foreign countries. American pianos are chiefly exported to Canada, where they constitute about 90 per cent of the total imports of that class, to Great Britain for reshaping to other parts of the world and to Central and South America. Our player pianos are sent in about equal numbers to Australia, England, Italy and Argentina.

A puncture-proof tire seems to have been perfected at last, but the bubble reputation is as easily punctured as ever.

It now begins to be plain that all these alluring fashions were coolly and cruelly devised to render prospects defenseless against leap year proposals.

We fancy that if all the sneezes of this country could be compressed into one and exploded, the world might suffer a blowout that would set the seismographs vibrating.

You may talk about the equality of the sexes all you please, but it is absolutely certain there is no chance to get women as highly interested in men's clothes as men are in women's clothes.

One guess as to the reason why eating onions is a preventive of colds is that when a fellow has indulged liberally in an onion diet no one will approach him near enough to convey the contagion.

## MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated,  
give "California Syrup  
of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.
